

# LAP-BAND® Procedure Revolutionizing Weight Loss Treatment Options

Many people face challenges with their weight, and obesity is a condition that can be difficult to treat. For some, weight loss surgery may be an option. It helps by restricting food intake, but it is important to clearly understand all of your options before making a decision about whether surgery is right for you.

The **LAP-BAND® System** provides patients with the most innovative treatment option. The procedure has three main benefits:

- **Less Invasive**
- **Fewer Risks**
- **Faster Recovery**

**Seth M. Kipnis, M.D.**

**Specialized Expertise:** Weight Loss Surgery  
Minimally Invasive Surgery

If you are interested in learning more about Jersey Shore's comprehensive program, please join Dr. Kipnis as he will be conducting monthly seminars explaining the innovative treatment options and support services we have to offer.
